

JANA MOHAMED ELHENAWY

Web Developer · Data Science Enthusiast · Competitive Programmer

Janaelhenawy06@gmail.com | +201553152753 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | Cairo, Egypt

SUMMARY

Student at Cairo University's Faculty of Computers and AI, passionate about building clean, user-focused digital products. Experienced across full-stack web development, database systems, and data science. Proven track record delivering production-grade projects — from a CBE-competition fintech app to a banking data science internship at CIB.

EXPERIENCE

Data Science Intern · Commercial International Bank (CIB) *Jun 2025 – Aug 2025*

- Worked on real-world banking datasets applying machine learning and business intelligence techniques.
- Completed CIB's internal Data Science Fundamentals training track.
- Delivered analytical reports on financial data patterns under professional supervision.

ECPC Participant · Egyptian Collegiate Programming Contest *Aug 2025*

- Competed in Egypt's most prestigious collegiate programming contest against top CS students nationwide.
- Tackled complex algorithmic challenges under strict time constraints.

Freelance Web Developer · Self-employed (ITIDA Gigs Program) *2025 – Present*

- Built and delivered client websites and portfolios through the ITIDA Gigs Freelancing Program.
- Managed client communication, proposals, and project scoping independently.

EDUCATION

Bachelor of Computers and Artificial Intelligence

Faculty of Computers and AI – Cairo University *2024 – 2028 (Expected)*

STUDENT ACTIVITIES & COMPETITIONS

FinYology Hackathon – Top Competitor · Central Bank of Egypt (CBE) *Apr – May 2025*

- Led a 4-person team to build FinCircle, a bilingual Egyptian fintech app, for the CBE's national Finyology competition.
- Delivered features including Digital Gam'eya, Smart BNPL, AI Financial Advisor (Egyptian Arabic dialect), EGX paper trading, and NFC payments.
- Managed end-to-end: ideation, prototype, business pitch, and live demo.

PROJECTS

FinCircle – Egyptian Fintech Platform | *HTML · CSS · JavaScript · Anthropic API*

Full-featured bilingual personal finance app built for the CBE Finyology competition. Features Digital Gam'eya, AI advisor in Egyptian Arabic, EGX paper trading, NFC payments, Zakat calculator, financial health score, and BNPL advisor. Designed with an Egypt-first UX.

Urban Fleet & Maintenance Hub | *C# · .NET WinForms · SQL Server · T-SQL*

Comprehensive fleet management desktop application for transportation agencies. Covers vehicle tracking, maintenance scheduling, driver management, inspection records, and work orders. Database includes stored procedures, triggers, cascading constraints, and full normalization.

<https://github.com/Jana-elhenawy/Urban-Fleet-Maintenance>

Cooking Star – Recipe Finder | *Python · Django · Django REST Framework · HTML · CSS · JavaScript*

Full-stack recipe discovery web app with REST API backend. Users can search recipes by ingredient, cuisine, or dish name. Deployed live on PythonAnywhere.

Budgeting SW – Personal Finance App | *Java · JavaFX · FXML · Maven*

Fintech-inspired desktop budgeting application built with JavaFX. Features income/expense tracking, category management, and a polished dark-themed UI. Resolved module-system and FXML rendering challenges.

<https://github.com/Jana-elhenawy/Budgeting-SW>

Calorig – AI-Powered Calorie Tracker | [Base44 \(LCNC\)](#) · [AI Integration](#)

No-code web app for daily calorie and nutrition tracking. Integrates AI assistance for meal logging and goal visualization. Demonstrates practical LCNC platform skills.

<https://calorig.base44.app/>

Student Grade Management System | [MySQL](#) · [SQL](#)

Fully normalized 6-table relational database for university records. Includes auto-calculated GPA, letter grades, transcript views, enrollment trigger, stored procedure for full student reports, and 10 analytical queries.

<https://github.com/Jana-elhenawy/student-grade-management-sql>

Weather Dashboard | [HTML](#) · [CSS](#) · [JavaScript](#) · [OpenWeatherMap API](#)

Real-time weather app with city search, 5-day forecast, hourly strip, dynamic weather-based backgrounds, and metric/imperial toggle. Zero frameworks — pure vanilla JS.
