

JANA MOHAMED ELHENAWY

Computer Science Student · Full-Stack Developer · Data Science

Janaelhenawy06@gmail.com | +20 155 315 2753 | Cairo, Egypt | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Computer Science student at Cairo University (Faculty of Computers and AI) with hands-on experience across full-stack web development, data science, and software engineering. Built production-level applications through a bank data-science internship, a product ownership internship, freelance client work, and national competitions, with a consistent focus on scalable, user-centered products for the Egyptian market.

EDUCATION

Bachelor of Computers and Artificial Intelligence

Faculty of Computers and AI — Cairo University

2024 – 2028 (Expected)

EXPERIENCE

Product Owner Intern · Medicaspace

Aug 2026 – Nov 2026 (3 months)

- Joined as a Product Owner intern, working across product strategy and delivery for Medicaspace.

Data Science Intern · Commercial International Bank (CIB)

Jun 2025 – Aug 2025

- Applied machine learning and business-intelligence techniques to real-world banking datasets, contributing to internal analytical workflows.
- Completed CIB's internal Data Science Fundamentals training track alongside the internship.
- Delivered analytical reports on financial data patterns under professional supervision.

Freelance Web Developer · Self-employed · ITIDA Gigs Program

2025

- Built and delivered 7+ client websites and portfolios through ITIDA's Gigs Freelancing Program.
- Managed client communication, proposals, and project scoping independently from first contact to delivery.

Full Stack .NET Track · DEPI (Digital Egypt Pioneers Initiative)

In Progress

- Currently enrolled in DEPI's Full Stack .NET track, building on existing C#/.NET experience toward production-grade web development.

ECPC Participant · Egyptian Collegiate Programming Contest

Aug 2025 & Aug 2026

- Competed in Egypt's premier collegiate programming contest against top CS students nationwide, solving algorithmic problems under strict time constraints.

STUDENT ACTIVITIES & COMPETITIONS

FinYology Hackathon — Top Competitor · Central Bank of Egypt (CBE)

Apr – May 2025

- Led a 4-person team to design and build FinCircle, a bilingual Egyptian fintech app, for the CBE's national FinYology competition.
- Shipped Digital Gam'eya, Smart BNPL, an AI Financial Advisor in Egyptian Arabic dialect, EGX paper trading, and NFC payments.
- Owned the process end-to-end: ideation, prototyping, business pitch, and live demo to competition judges.

PROJECTS

FinCircle — Egyptian Fintech Platform

HTML · CSS · JavaScript · Anthropic API

Full-featured bilingual personal finance app built for the CBE FinYology competition. Features Digital Gam'eya, an AI advisor in Egyptian Arabic, EGX paper trading, NFC payments, a Zakat calculator, a financial health score, and a BNPL advisor, all built around an Egypt-first UX.

Urban Fleet & Maintenance Hub

C# · .NET WinForms · SQL Server · T-SQL

Fleet management desktop application for transportation agencies covering vehicle tracking, maintenance scheduling, driver management, inspection records, and work orders. Database built with stored procedures, triggers, cascading constraints, and full normalization.

<https://github.com/Jana-elhenawy/Urban-Fleet-Maintenance>

Cooking Star — Recipe Finder

Python · Django · Django REST Framework · JavaScript

Full-stack recipe discovery web app with a REST API backend, letting users search recipes by ingredient, cuisine, or dish name. Rebuilt from a static site into a fully database-driven Django application. Deployed live on PythonAnywhere.

<https://janaelhenawy.pythonanywhere.com/>

Budgeting SW — Personal Finance App

Java · JavaFX · FXML · Maven

Fintech-inspired desktop budgeting application with income/expense tracking, category management, and a polished dark-themed UI. Debugged and resolved module-system and FXML rendering issues.

<https://github.com/Jana-elhenawy/Budgeting-SW>

Caloriq — AI-Powered Calorie Tracker

Base44 (LCNC) · AI Integration

No-code web app for daily calorie and nutrition tracking with AI-assisted meal logging and goal visualization, demonstrating practical low-code/no-code platform skills.

<https://caloriq.base44.app/>

Student Grade Management System

MySQL · SQL

Fully normalized 6-table relational database for university records, including auto-calculated GPA, letter grades, transcript views, an enrollment trigger, a stored procedure for full student reports, and 10 analytical queries.

<https://github.com/Jana-elhenawy/student-grade-management-sql>

Weather Dashboard

HTML · CSS · JavaScript · OpenWeatherMap API

Real-time weather app with city search, 5-day forecast, hourly strip, dynamic weather-based backgrounds, and a metric/imperial toggle — built framework-free in vanilla JS.

<https://jana-elhenawy.github.io/weather-dashboard/>

TECHNICAL SKILLS

Languages: Python, Java, C++, C, JavaScript, PHP, SQL

Frontend: HTML, CSS, JavaScript

Backend: Django, Django REST Framework, REST APIs, .NET

Database: SQL Server, MySQL, T-SQL

Tools: Git, GitHub, Maven, VS Code, PythonAnywhere

Concepts: OOP, Database Design, Data Analysis, Machine Learning, Competitive Programming, UI/UX Design, Agile/Scrum

CERTIFICATIONS

- DEPI (Digital Egypt Pioneers Initiative) — Full Stack .NET Track (In Progress)
- ITIDA Gigs Freelancing Program — ITIDA × EYouth (3-month program: proposal writing, client management, marketing strategies)
- Data Science Fundamentals — CIB Internal Training Program
- AWS Cloud Practitioner (In Progress)
- Git & GitHub — Version Control Fundamentals

LANGUAGES

Arabic — Native | English — Professional Proficiency
